STONE EDGE

SANDOWN HALL

SANDOWN HALL

The original Sandown Hall building stood on the outskirts of Wavertree until it was eventually dismantled in the mid 1990s.

Stone Edge's draughtsmen have carefully sifted through the perishing remains to carefully copy each precise detail so that the entire building could be replicated.

The works include/involved:

- Full detailing of remaining historic building.
- Production of all drawings and schedules for the full replication of load bearing masonry for new facades with pediment & portico.
- Stonemasonry fixing work to complete new structure.
- Supply and fixing of all external balustrades, entrance steps and pavours
- Design and install of entrance gateway arrangements.

SHOULD YOU WISH TO DISCUSS YOUR
CURRENT OR FUTURE REQUIREMENTS,
PLEASE DON'T HESITATE TO CONTACT US.
